

NEW, low cost pre-production samples

only **\$35***

Shown: SIXPAC Plus item 8811AQ

For \$35, (*plus 1st column individual product cost), we will provide exact specification samples on our full-colour printer. Set-up costs do not apply for these samples but will be applied on any resulting orders per our usual terms. Pre-production sample cost (\$35) will be credited towards any resulting order.

FREE SHIPPING TOO! That's right, we'll even pay the freight for your printed pre-production sample, subject to ground shipments and via our choice of carrier.

36 pack for Teeny Turner. Ideal for trade shows:

Packaging: Product comes standard in bulk (6 pcs. per carton), Teeny Turner (36 pcs).
Sealed blister packs (shown above) are extra per costs shown regardless of quantity ordered.

Imprinting charges and details

- Set-up cost initial print: \$70
- Set up cost, 2nd unique print: \$45.00
- included in product cost: Single, one-colour imprint
- Full-colour imprint: \$0.25 per unit
- 2nd location, single colour: \$0.15 per imprint
- 2nd location, full-colour: \$0.25 per imprint
- Exact repeat orders: Set-up charges waived, standard imprint costs apply

Art requirements: Vector files only (.AI, .EPS, .CDR.) All fonts converted to curves.

For full-colour prints, final art must be provided with all colours in the file shown as WYSIWYG (what you see is what you get).

Proofs: We will size your print to fit the individual handle(s) to ensure accuracy and provide 100% size electronic (PDF) proof. A virtual mockup (PDF) sheet can be provided on request.

Please note if art requirements are not met, additional art charges are \$60 per hour, with \$30 min. charge for 30 minutes of artwork labour. If artwork labour is required, our staff will advise accordingly before proceeding.

Pantone colours: - PMS (pantone matching system)
Our printer prints in CMYK. As a result, any specific PMS colours must be identified to us or we cannot print the job. All PMS "matches" are produced by a CMYK print process, not by pantone ink mixture. There are no extra charges for PMS prints but clients must accept that the colour is produced by CMYK and may vary slightly from the pure pantone equivalent. Note: If a perfect PMS match is required, we can only provide this on our pad printing equipment for an extra charge (charges vary depending on the specific colour of ink as this cost varies by colour). Pad printing lead times are increased to 3-4 weeks from receipt of final proof. A plate charge of \$70 applies in place of a set-up charge. Pad printing plates are permanent so when exact repeats of the same product are ordered, there is no set-up or plate charge.

Customers will assume complete responsibility for obtaining proper permission for reproduction of logos, patents, trademarks and copyrights.

Standard Delivery: 2 weeks from final proof approval (plus transport time). Orders can be rushed and variable extra charges apply - please inquire at time of order. Lead time for "Pad printed" orders is 3-4 weeks.

Freight: Customers are advised to have us "prepay and charge" for freight. This ensures that your order will not incur any brokerage charges as all of our prepaid shipments transit the US / Canada border via our brokerage team.

How to order: Combine item# with the color code: (ie: 8811RR is a Sixpac Plus in Ruby Red Transparent color), and indicate choice of either bulk or packaged.

Custom moulded handle colors are available, subject to 1000 pcs min. order. Extended lead time (8-10 weeks) and extra charges apply depending on specific processing requirements and volume.

Origin & shipments: All Picquic products are manufactured in our Vancouver, BC Canada plant. We ship USA orders from our facility in Blaine, Washington state. No duties or brokerage charges apply when shipments route via our carrier.

This price list & catalogue published and effective as at August 1, 2019. All terms, prices & product details are subject to change without notice.

Picquic =
INSTANT bit-changes

The original SIXPAC Plus item 8811SK

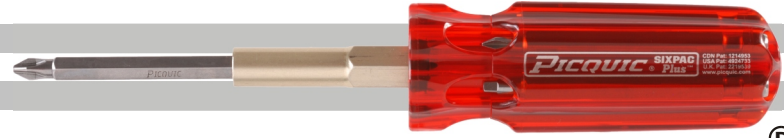

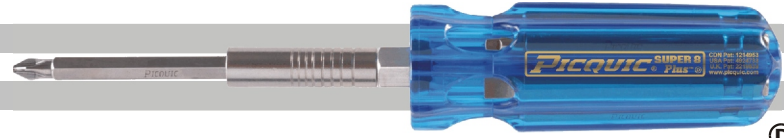

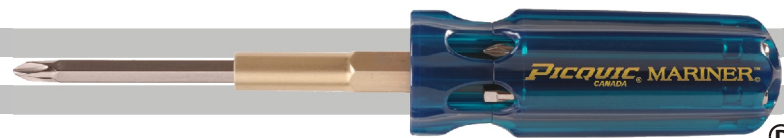

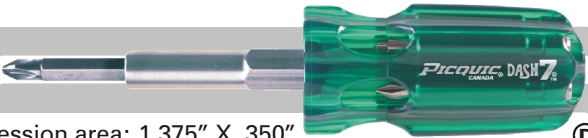

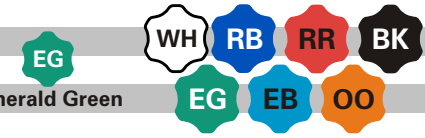

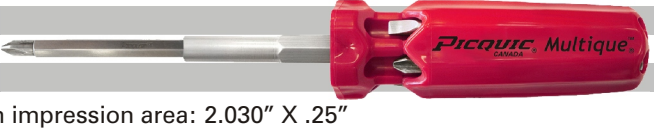

The power of word of mouth has made Picquic the most respected name in multi-screwdrivers.

Picquics are made for industry, they're made for home and offices. They're made for Men, Women, Teens and all kinds of trades. Most importantly, Picquics are made to last, which makes them especially effective as corporate gifts, rewards, and incentives.

There's a Picquic model to suit nearly every application and every budget and thanks to their unique form and function everyone that receives your Picquic will appreciate, and use it for years to come!

Thanks for considering Picquic for your promotional Tool.
